## Cylch Meithrin Tedi Twt

Alison recently decided to follow the Camau course – these are her experiences.

### Why?

Alison wanted to follow the course as she needed to speak Welsh for her role as a childcare practitioner.

One of the main benefits of taking the online course according to Alison was the fact that it helped her to use her Welsh at the setting and to be able to practise Welsh with her children.

### Result!

"Completing the online course was so much easier and less stressful as you don't feel embarrassed when practicing speaking the language. It's easier because you can go on and do a unit when you can because you're not tied to a day and time."

### Alison's Top Tips!

- Take your time and don't rush it
- Practise saying everything out loud when completing each unit and practising
- Use your Welsh at the setting as much as you can
